

## NON-FIRED CLAYS

## No Kiln Required

### OVEN CRAFT

is a non toxic, non staining clay. Work and clean up with water. This product may be hardened by baking at 350 F. for one hour. This can be done in your kitchen oven. OVENCRAFT bakes to a beautiful speckled red brown color.

**\$9.20 per 4# bag**

### PLASTELENE

is a pigmented, oil base modeling compound known for its smooth consistency and color range. This clay has a low (150 F.) melting point. This enables you to pour it into molds or to use white and ivory plastelene to mute the darker colors and provide a broader color spectrum. Never hardens.

All colors have been tested and approved by the Arts and Crafts Material Institute and have received their CP NON TOXIC seal. Now packed in 453 gm. units (1 lb.)

1 - 9 pkg. **\$ 3.69 ea.**                      10 - 31 pkg. **\$ 2.95 ea.**                      32+pkg. **\$ 2.49 ea.**  
4.5 # block **\$ 14.95 ea.**                      Case of 8 ea. 4.5# blocks **\$ 11.95 / block**

### DARWI

is the ideal modeling compound. It is white, odorless, non-toxic and air drying. After drying for 24 hours or more you can carve, sand, and paint Darwi. Clean up is simple. For hands, brushes etc, just wash up with water. When dried, Darwi can be vacuumed from clothing, carpeting or any work area.

**\$ 13.99 per kilo (2.2# pkg)**

### CERNIT

is a high quality polymer clay that is easy to work. It is softer than other polymer clays and is said to be the hardest of all the polymer clays when baked. Bake CERNIT in your oven for 10 - 30 minutes at 215 degrees F. Time of baking is decided based upon size and thickness of the project.

Cernit has a plastic like quality that gives it flexibility. Thin pieces do not snap or break as easily as other brands as the baked clay gives a little. Thus, greater durability for functional items such as earrings and pendants.
