All warranties extend to original purchaser only. Standard Rollers used in a commercial, professional, or instructional setting are guaranteed for two years. Otherwise, the Standard and Super Rollers are guaranteed for life.

## SLAB ROLLER PACKS

Complete, ready to go, slab roller package. Included is the slab roller pictured to the right, a steel work table and table top. The worktable is 4 or 6 foot long depending on the model selected. All packages include a 24" wagon-wheel drive handle. The table top opens to let the slab roller drop in so that the top of the bottom steel roller is level with the tabletop. With the roller removed the table can be closed giving a general-purpose work surface. Changeover takes 60 seconds or so. Some assembly required.

## THE PORTA ROLLER

Over 4 feet long and less than 25 pounds. No tools required. Great for demos and small studios. Make slabs from 1/16" - 2.25 inches. Make 18 inch wide x 48 inch long slabs. Two heavy duty canvas sheets included. Warranted for 5 years.
